See attached update.

Cari-Michel said the preliminary results of the samples showed some detects for the chlorothalonil, but below the TCEQ calculated health advisory of 50 ppb. Samples for cyanide (a degradation product of MBT) showed some detects but below the MCL of 200 ppb.

May have more on the results later this evening.

Attached are the Craft-Turney Updates and the New Release issued by TCEQ last evening.

I'll continue to monitor email to see if any updates occur throughout the weekend and Monday.

Jim
